**Policy on the Administration of Medicines**

No person may provide any medicinal compound of any description to any member of staff or student of the school, except by prior arrangement with the Principal in the event of an emergency arising.

Parents and staff who wish to have such emergency medications held on the premises must place them in the care of the Principal with the name of the student or staff member for whom they are intended clearly marked on the medication together with clear written instructions regarding their use.

Persons in possession of their own medication may, at their own risk, take such medication as proscribed at the appropriate times.
